Grizzly EPS LE

Crimson Metallic w/Aluminum Wheels
\$10,899 MSRP*

TOP FEATURES

1. High-Tech Engine Designed For Aggressive Trail Riding

The Grizzly® EPS LE features a powerful DOHC, 708cc, 4-valve, fuel-injected engine with optimized torque, power delivery and engine character for aggressive recreational riding.

2. High-Performance Ultramatic® Transmission

Grizzly EPS LE's Ultramatic® transmission features a gated shifter, dual-range (Hi/Lo) drive plus reverse gear, and is the most advanced—and durable—CVT drive system available. An automatic centrifugal clutch maintains constant belt tension for reduced belt wear and a sprag clutch delivers natural all-wheel engine braking.

3. Trail-Ready Chassis

Advanced chassis designed to take advantage of 26-inch, exclusively-designed Maxxis® tires, 5-way preload adjustable suspension and four-wheel disc brakes, creating optimum terrainability, comfort and handling—especially on long, rough trails.

4. Sharp Styling

The Grizzly EPS LE's styling features LED headlights with a handlebar-mounted halogen work light, an LED taillight, reshaped fenders, with three large storage compartments and large-diameter front and rear racks with excellent load capacity.

5. Yamaha's Exclusive On-Command 4WD

The three-position On-Command® 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD all with the simple push of a button. Override button allows engine to reach maximum rpm in full diff lock mode.

6. Advanced Instrumentation

Digital instrument panel boasts a multifunction LCD display with speedometer, odometer, dual tripmeter, hour meter, 4WD status, transmission position, clock and fuel gauge.

7. Class-Leading Power Steering

Yamaha's Electric Power Steering (EPS) provides the industry's best balance of steering assist and positive feedback from the trail, providing maximum comfort and confidence.

*Manufacturer's Suggested Retail Price (MSRP) shown. Does not include tax, title, prep or destination charges. Actual prices set by dealer.

FEATURES & BENEFITS

TOP FEATURES - CONT.

8. Limited Edition Package: The Ultimate in Trail Adventure

The Grizzly® EPS LE comes complete with heated rider accommodations, a quick-release windscreen, machined alloy wheels, sharp Crimson Metallic painted bodywork and special graphics—for exceptional comfort and style.

ENGINE

High-Tech Engine Designed For Aggressive Trail Riding

The Grizzly EPS LE features a powerful DOHC, 708cc, 4-valve engine with optimized torque, power delivery and engine character for aggressive recreational riding. Mikuni® fuel injection means easy cold starts and flawless fuel delivery in nearly any condition.

High-Performance Ultramatic® Transmission

Grizzly EPS LE's Ultramatic® transmission features a gated shifter, dual-range (Hi/Lo) drive plus reverse gear, and is the most advanced—and durable—CVT drive system available. An automatic centrifugal clutch maintains constant belt tension for reduced belt wear and a sprag clutch delivers natural all-wheel engine braking.

Yamaha's Exclusive On-Command 4WD

The three-position On-Command® 4WD system lets you switch between 2WD, limited-slip 4WD and a fully locked differential 4WD all with the simple push of a button. An override button allows engine to reach maximum rpm in full diff lock mode, and a straight driveshaft layout eliminates U-joints for reduced friction, noise, vibration, and maintenance.

High-Mounted Air Intake

A long, high-mounted air intake layout increases power and torque while providing additional room for center storage and easy tool-less servicing of the large foam air filter element.

Stainless Steel Exhaust

Stainless steel exhaust system features a screen-type spark arrestor for great power with minimum noise output.

High-Capacity Radiator with Fan

High-capacity radiator with fan-assist delivers plenty of air flow for maximum cooling efficiency and is positioned high in the frame for optimal protection.

Drive System Air Intake

Specially designed, high-mounted drive system air intake helps reduce drive system temperatures and assists in keeping water and debris from entering the drive case.

CHASSIS/SUSPENSION

High-Performance Tires

26-inch, exclusively-designed Maxxis® tires provide precise steering, optimize comfort and maximize available traction.

Independent Double Wishbone Front and Rear Suspension

Independent double wishbone suspension, with 7.6" of front wheel travel and 9.1" at the rear, provides excellent rider comfort even on the toughest trails, thanks to nitrogen-charged shocks with 5-way adjustable preload.

Four-Wheel Hydraulic Disc Brakes

Four-wheel hydraulic disc brakes with single-piston calipers serve up powerful and consistent braking performance to add to rider confidence with unmatched braking feel.

Underseat Fuel Tank

An optimized 4.76-gallon fuel tank is located under the seat for excellent mass centralization and handling.

Generous Ground Clearance

The Grizzly EPS LE offers an impressive 11.3 inches of maximum ground clearance and full-length composite skid plates, to deliver maximum underbelly protection while enhancing terrainability.

Aggressive and Durable Styling

Rugged blow-molded front bumper resists scratching and won't rust, while injection-molded fenders and CV joint guards protect against rock and debris damage.

Class-Leading Power Steering

Yamaha's Electric Power Steering (EPS) provides the industry's best balance of steering assist and positive feedback from the trail, providing maximum comfort and confidence.

ADDITIONAL FEATURES

Limited Edition Package: The Ultimate in Trail Adventure

The Grizzly® EPS LE comes complete with heated rider accommodations, a quick-release windscreen, machined alloy wheels, sharp Crimson Metallic painted bodywork and special graphics—for exceptional comfort and style.

Trailer Ball Mount

Heavy-duty ball mount hitch comes standard and can tow more than 1300 pounds.

Extensive Cargo Capacity

Rugged, large-diameter steel cargo racks with durable wrinkle paint finish can pack a total of 308 pounds combined (110 lbs. front, 198 lbs. rear). Three on-board storage compartments keep things secure.

LED Headlights and Taillight

LED technology uses less power, creates brighter, sharper illumination, and offers lifetime durability.

Auxiliary Third Light and Power Point

A handlebar-mounted halogen work light provides additional illumination that moves with rider input for excellent visibility, while a 12V outlet provides power for accessories.

Plush Seat

A long, plush seat improves rider comfort for extended days exploring every trail.

Assembled in USA
